

ITQB-UNL

Scientific Areas for the Recruitment of Professors, Associate Professors, and Assistant Professors

Analytical Biochemistry
Analytical Chemistry
Animal Cell Physiology
Animal Physiology
Biochemical Engineering
Biochemistry
Biochemistry and Microbial Physiology
Bioenergetics
Bioinformatics
Bioinorganic Chemistry
Biological Engineering
Biology
Biomathematics
Biomedical Engineering
Biomolecular Simulation
Bioorganic Chemistry
Biophysics
Biosensors and Biodiagnostics
Biotechnology
Catalysis
Cell Biology
Cell Technology
Cell Therapies
Chemical Engineering
Clean Process Technology
Clinical Technology
Computational Biology
Developmental and Cell Biology
Developmental Biology
Ecology
Electrochemistry
Environmental Chemistry
Enzyme Technology
Enzymology
Epidemiology
Evolutionary Biology
Food Chemistry
Gene Therapies
Host-Microbe Interactions
Immunology
Inorganic Chemistry
Medicinal Chemistry
Microbial Biochemistry
Microbial Cell Biology
Microbial Physiology
Microbial Technology
Microbiology
Molecular Biology
Molecular Biophysics
Molecular Genetics
Nanobiotechnology
Nanotechnology
Natural Products Chemistry
Neurosciences
Organ and Tissue Engineering
Organic Chemistry
Organometallic Chemistry
Pharmaceutical Chemistry
Pharmaceutical Technology
Photochemistry
Physical Chemistry
Physiology
Plant Physiology
Polymers, Colloids and Surfaces
Population Genetics
Quantum Chemistry
Reaction Mechanisms
Reactors
Spectroscopy
Structural Biochemistry
Structural Biology
Structural Chemistry
Supramolecular Chemistry
Systems Biology
Theoretical and Computational Chemistry
Vaccines
Virology
