

Mini-Symposium

Two bacterial pathogens and a way to kill them

December 5^h, 2014
Room 2.13 & auditorium, ITQB-UNL

ITQB

Molecular Genetics
Laboratory, ITQB-UNL

Hosts: Hermínia de Lencastre and
Adriano O. Henriques.

10 am - VERONIQUE BROUSSOLLE

INRA/Université d'Avignon , AVIGNON, FRANCE

“Coping with the cold: RNA helicases of the foodborne pathogen *Bacillus cereus*” - room 2.13

10:45 am - RITA SOBRAL

UCIBIO@REQUIMTE, FCT-UNL, CAPARICA

”DNA binding at the surface of *Staphylococcus aureus* - the role of Atl” - room 2.13

11:30 am - FREDERIC CARLIN

INRA/Université d'Avignon , AVIGNON, FRANCE

“Mechanisms of inactivation of micro-organisms by pulsed light” - room 2.13

2:30 pm - TERESA FIGUEIREDO

MOLECULAR GENETICS, ITQB, OEIRAS

“Amidation of peptidoglycan in *Staphylococcus aureus*”
(PhD THESIS PRESENTATION) - auditorium
