I have heard nothing but praise (and my inbox has been flooded for the past week) ... – a great success!

... very many thanks (and elaborate words of praise) for a really nicely organized and interesting meeting that you organized for all of the workers in this exuberant field. I think you and your assistants did a fabulous job, and set a pretty high standard for future conferences to maintain.

I just had to write to congratulate you for a most excellent week's discussion in Vilamoura! The meeting was a great success; the science and the friendship were truly excellent!

Can I join the other plenary speakers and indeed friends in the IL community to again congratulate you on an excellent programme and event? The lectures were well received and the discussion lively. A welcome shot in the arm for us all! (as well as some lovely sunshine!)

I thought the conference was absolutely perfect from start to finish - the science was great, and the conference dinner was AMAZING. My eye nearly popped out when I saw the venue!
